# **Chapter 1        Overview**

## **1.1 Independent Hospital Pricing Authority**

The Independent Hospital Pricing Authority (*Pricing Authority*) is established under the National Health Reform Act 2011 (Cth) (*Act*), and by virtue of section 131(1) of the *Act* is invested with the following functions relevant to this National Efficient Price Determination 2012-2013 (*Determination*):

- (a) to determine the national efficient price for health care services provided by public hospitals where the services are funded on an activity basis;
- (b) to determine the national efficient price for health care services provided by public hospitals where the services are block funded;
- (c) to develop and specify classification systems for health care and other services provided by public hospitals;
- (d) to determine adjustments to the national efficient price to reflect legitimate and unavoidable variations in the costs of delivering health care services;
- (e) except where otherwise agreed between the *Commonwealth* and a *State* – to determine the public hospital functions that are to be funded in the *State* by the *Commonwealth*; and
- (f) to publish a report setting out the national efficient price (*NEP*) for the coming year and any other information that would support the efficient funding of public hospitals.

This inaugural *Determination* is the initial output of the performance of those functions by the *Pricing Authority*.

## **1.2 Data Quality**

In making this *Determination*, the *Pricing Authority* has relied on a number of different data sources.

Costing information used to determine the *NEP* has been drawn from the *National Hospital Cost Data Collection* (NHCDC) Round 14, as provided by *States*. Whilst there have been considerable improvements in the consistency of cost allocation methods applied across *States* in recent years, the *Pricing Authority* recognises that there needs to be further improvements made in this respect in coming years.

The classification systems in use for Emergency Departments and non-admitted services are being used for the first time and the activity and costing data for these are less mature than for acute admitted hospital services. For this reason, these classification systems will both be substantially reviewed and redeveloped in coming years.

Notwithstanding these limitations, the *Pricing Authority* is satisfied that this *Determination* is fit for use for funding in 2012-2013.

## **1.3 Development of Determination**

In performing the functions outlined above and preparing this *Determination*, the *Pricing Authority* has had regard, as required pursuant to sections 131(3) and 132 of the *Act*, to:

- (a) relevant expertise and best practice within Australia and internationally;
- (b) submissions made at any time by the Commonwealth or a State;
- (c) the need to ensure:
  - (i) reasonable access to health care services;
  - (ii) safety and quality in the provision of health care services;
  - (iii) continuity and predictability in the cost of health care services; and
  - (iv) the effectiveness, efficiency and financial sustainability of the public hospital system;
- (d) the range of public hospitals and the variables affecting the actual cost of providing health care services in each of those hospitals; and
- (e) relevant intergovernmental agreements (including the National Health Reform Agreement 2011 (*Agreement*)).

## **1.4 Structure of this Determination**

This Determination is structured as follows. Chapter 2 of this Determination establishes the (*NEP*) for public hospital services which will apply during the 2012-2013 financial year. Chapter 3 identifies the types of public hospital services which are eligible for Commonwealth funding in 2012-2013.

Chapter 4 and Appendix B identify the *Price Weights* to be applied to *ABF Activities*. Chapter 5 and Appendix A provide details of *Adjustments* to Price Weights for ABF Activities occurring within in certain contexts.

Chapter 6 provides a link to a document outlining the technical foundations of the pricing model that is at the centre of this Determination (*National Pricing Model*). Chapter 7 describes the standards applicable to the use of activity based funding in the 2012-2013 financial year.

## **1.5 Terminology**

Although the Pricing Authority aims to use plain English to make its documents accessible to a wide audience, the subject matter of this Determination requires the use of some specialist terms. For ease of reference, the meaning of those terms is set out in an [electronic glossary available from the IHPA web site](#)

(<http://www.ihpau.gov.au/internet/ihpa/publishing.nsf/Content/nep-glossary-2012-13>)

Defined terms are capitalised where used throughout this Determination; the first use of any defined term is in italicised text.

## **Chapter 2      National Efficient Price for 2012-2013 financial year**

### **2.1 The NEP**

The NEP is \$4,808 per National Weighted Activity Unit 2012-2013 (*NWAU(12)*).

### **2.2 Calculation of the NEP**

The NEP is based on the projected average cost (*PAC*) of an *NWAU(12)* after the deduction of specified Commonwealth funded programs.

The *PAC* is derived from actual average reported costs of public hospital activity in the 2009-2010 financial year of \$4,141, indexed at a rate of 5.1 per cent per annum.

Consistent with clause B12.e of the Agreement, in calculating the NEP, the following Commonwealth funded programs have been removed from the *PAC*:

- National Blood Agreement (\$48.3 million in the 2009-2010 financial year);
- Highly Specialised Drugs (\$699.5 million in the 2009-2010 financial year); and
- The “National Health (Efficient Funding of Chemotherapy) Special Arrangement” which commenced on 1 December 2011. This incorporates the former “National Health (Chemotherapy Pharmaceutical Access Program) Special Arrangement” and “National Health (trastuzumab) Special Arrangement” and intravenous chemotherapy supplied under Schedule 2 of the Pharmaceutical Benefits Schedule (\$85.0 million in the 2009-2010 financial year).

In this inaugural year of the NEP, it has not been possible to fully account for all Commonwealth funding directed towards programs using NHCDC data. It is anticipated that it will be possible, through more targeted data collection, to rely on a more comprehensive account of Commonwealth contributions in preparing future determinations.

### **2.3 Price of an ABF Activity**

The price of an ABF Activity is calculated using the following formula, with Adjustments applied as applicable:

$$\text{Price of an ABF Activity} = [A_{PPS} \times (A_{ICU} \times \text{ICU hours} + (1 + A_{Ind} + A_A) \times A_{Paed} \times PW) - (A_{Acc} \times LOS)] \times \text{NEP}$$

Where:

$A_A$	means each or any <i>Remoteness Area Adjustment</i>
$A_{Acc}$	means the <i>Private Patient Accommodation Adjustment</i> applicable to the State of hospitalisation and length of stay
$A_{ICU}$	means the <i>ICU Adjustment</i>

<b>A<sub>Ind</sub></b>	means the <i>Indigenous Adjustment</i>
<b>A<sub>Paed</sub></b>	means the <i>Paediatric Adjustment</i>
<b>APPS</b>	means the <i>Private Patient Service Adjustment</i>
<b>ICU hours</b>	means the number of hours spent by a person within a <i>Specified ICU</i>
<b>LOS</b>	means length of stay in hospital (in days)
<b>NEP</b>	National Efficient Price 2012-2013
<b>PW</b>	means the Price Weight for an ABF Activity as set out at Appendix B

In the event that the application of the Private Patient Accommodation Adjustment and the Private Patient Service Adjustment returns a negative NWAU(12) value for a particular patient, the NWAU(12) value is held to be zero - that is, negative NWAU(12) values are not permitted for any patients under the National Pricing Model.

## **Chapter 3        In-scope Public Hospital Services**

### **3.1 Overall Scope**

In accordance with section 131(f) of the Act and clauses A9–A17 of the Agreement, the scope of public hospital services eligible for Commonwealth funding under the Agreement is as follows:

- (a) all admitted programs, including hospital in the home programs. Forensic mental health inpatient services are included as recorded in the 2010 Public Hospital Establishments Collection;
- (b) all Emergency Department Services provided by an Emergency Department; and
- (c) non-admitted services as defined below.

### **3.2 Non-admitted services**

The listing of in-scope non-admitted services is independent of the service setting in which they are provided (e.g. at a hospital, in the community, in a person's home). This means that in-scope services can be provided on an outreach basis.

To be included as an in-scope non-admitted service, the service must meet the definition of a *Service Event* which is:

an interaction between one or more healthcare provider(s) with one non-admitted patient, which must contain therapeutic/clinical content and result in a dated entry in the patient's medical record.

Consistent with clause A25 of the Agreement, the Pricing Authority will conduct analysis to determine if services are transferred from the community to public hospitals for the dominant purpose of making services eligible for Commonwealth funding.

There are two broad categories of in-scope, public hospital non-admitted services:

- (a) Specialist Outpatient Clinic Services; and
- (b) Other Non-admitted Patient Services.

### **3.3 Category A: Specialist Outpatient Clinic Services**

This comprises all clinics on the Tier 2 List that were reported as a public hospital service in the 2010 Public Hospital Establishments Collection in terms of their activity, expenditure or staffing.

The following clinics are considered by the Pricing Authority as unlikely to be eligible for Commonwealth funding as a public hospital service under Category A: Specialist Outpatient Clinic Services:

- Commonwealth funded Aged Care Assessment (40.02);

- Family Planning (40.27);
- General Counselling (40.33);
- General Practice and Primary Care (20.06); and
- Primary Health Care (40.08).

Jurisdictions that consider that there are exceptions where the above services should be included as eligible for Commonwealth funding as a public hospital service will be asked to provide evidence to support their inclusion based on whether the clinic was reported as a public hospital service in the 2010 Public Hospital Establishments Collection.

## **Category B. Other Non-admitted Patient Services**

To be eligible for Commonwealth funding as an Other Non-admitted Patient Service, a service must be:

- (a) directly related to an inpatient admission or an emergency department attendance; or
- (b) intended to substitute directly for an inpatient admission or emergency department attendance; or
- (c) expected to improve the health or better manage the symptoms of persons with physical or mental health conditions who have a history of frequent hospital attendance or admission; or
- (d) reported as a public hospital service in the 2010 Public Hospital Establishments Collection.

Jurisdictions will be invited to propose services that will be included or excluded from Category B “Other Non-admitted Patient Services”. Jurisdictions will be required to provide evidence to support the case for the inclusion or exclusion of services based on the four criteria above.

# **Chapter 4        Price Weights**

## **4.1 Price Weights**

Price Weights expressed as NWAU(12), are set out at Appendix B, by classification.

## **4.2 Classification systems**

The classification systems used are:

- (a) AR-DRG version 6.x;
- (b) URG version 1.2;
- (c) UDG version 1.2; and
- (d) Tier 2 List version 1.2.

# **Chapter 5        Adjustments**

## **5.1 Adjustments**

Adjustments to Price Weights (expressed as NWAU(12)) are to be applied in the manner and in the order indicated by the formula for determining the NWAU(12) value (price) of an ABF Activity (refer Chapter 2).

## **5.2 Precedence of Adjustments**

To avoid doubt, Adjustments have the following order of precedence of application:

- (a) Paediatric Adjustment; then
- (b) any Remoteness Area Adjustment and/or Indigenous Adjustment; then
- (c) ICU Adjustment; then
- (d) Private Patient Service Adjustment; then
- (e) Private Patient Accommodation Adjustment.

Circumstances in which Adjustments are to be applied are described in Table 1:

**Table 1: Adjustments**

Name	Context	Amount to be applied	
<b>ICU Adjustment</b>		(a) Is not represented by an newborn/neonate AR-DRG; and  (b) Is not identified as being “ICU bundled” in the tables of Price Weights (Appendix B); but  (c) Is in respect of a person who has spent time within a Specified ICU.	0.0394 NWAU(12)/hour spent by that person within the Specified ICU
<b>Indigenous Adjustment*</b>	Where an ABF Activity:	Is in respect of a person who identifies as being of Aboriginal and/or Torres Strait Islander origin.	5.0 per cent
<b>Outer Regional Adjustment**</b>		Is in respect of a person whose residential address is within an area that is classified as being <i>Outer Regional</i> .	8.7 per cent
<b>Remote Area Adjustment**</b>		Is in respect of a person whose residential address is within an area that is classified as being <i>Remote</i> .	15.3 per cent
<b>Very Remote Area Adjustment**</b>		Is in respect of a person whose residential address is within an area that is classified as being <i>Very Remote</i> .	19.4 per cent
<b>Paediatric Adjustment</b>		(a) Is not represented by an newborn/neonate AR-DRG; but  (b) Is in respect of a person who: (i)    is aged up to and including 16 years; and (ii)    has spent time within in a <i>Specialised Children’s Hospital</i> .	Refer to column headed “Paediatric Adjustment” in the tables of Price Weights (Appendix B)
<b>Private Patient Service Adjustment</b>		Is in respect of an Eligible Admitted Private Patient.	Refer to column headed “Private Patient Service Adjustment” in the tables of Price Weights (Appendix B)
<b>Private Patient Accommodation Adjustment</b>		Is in respect of an Eligible Admitted Private Patient.	Refer to Appendix A for applicable discount

\* Note that the Indigenous Adjustment and Outer Regional Adjustment, Remote Area Adjustment and Very Area Remote Adjustment may (if applicable) be applied to the full range of ABF Activities (i.e. to Separations, Presentations and Service Events).

# The Outer Regional Adjustment, Remote Area Adjustment and Very Remote Area Adjustment are the Remoteness Area Adjustments for the purpose of this Determination.

For the purposes of illustration, the Adjustments to be applied on the basis of Remoteness Area and Indigenous status are shown below:

<b>Remoteness Area</b>	<b>Indigenous</b>	<b>Non-Indigenous</b>
Major Cities of Australia	5.0%	-
Inner Regional Australia	5.0%	-
Outer Regional Australia	13.7%	8.7%
Remote Australia	20.3%	15.3%
Very Remote Australia	24.4%	19.4%

## **Chapter 6      National Pricing Model technical specifications**

### **6.1 Technical Specifications**

Detailed technical specifications of the National Pricing Model are available at:

[http://www.ihpa.gov.au/internet/ihpa/publishing.nsf/Content/NEP-tech-spec/\\$File/NationalPricingModelTechnicalSpecification.pdf](http://www.ihpa.gov.au/internet/ihpa/publishing.nsf/Content/NEP-tech-spec/$File/NationalPricingModelTechnicalSpecification.pdf)

# **Chapter 7 Standards**

The following standards apply to the use of activity based funding in the 2012-2013 financial year:

## **7.1 Coding and classification**

### **7.1.1 Admitted patients**

ICD-10-AM/ACHI/ACS 7th Edition

AR-DRG V6.x

### **7.1.2 Emergency Departments**

Urgency Related Groups version 1.2

Urgency Disposition Groups version 1.2

### **7.1.3 Non-admitted patients**

Tier 2 Outpatient Clinic Definitions version 1.2

These [reference standards](#) are available on the [IHPA web site](#) ([http://www.ihpau.gov.au/internet/ihpa/publishing.nsf/Content/ABF-Price-Model-Reference-Classifications-for-2012-13/\\$File/Tier2OutpatientsClinicDefinitionsV1-2\(Final\).pdf](http://www.ihpau.gov.au/internet/ihpa/publishing.nsf/Content/ABF-Price-Model-Reference-Classifications-for-2012-13/$File/Tier2OutpatientsClinicDefinitionsV1-2(Final).pdf))

## **7.2 Intensive Care Units**

In 2012-2013 and 2013-14, the ICU Adjustment will apply to Specified ICUs. These are ICUs and PICUs that are Level 3, as determined by the Australian and New Zealand Intensive Care Society (ANZICS), or nominated by jurisdictions as meeting this standard.

In 2014-2015, only those ICUs and PICUs listed as meeting this standard by an independent body will be eligible for this payment.

## **7.3 Costing**

Costing for the 2012-2013 financial year (NHCDC Round 17) will be carried out using the Australian Hospital Patient Costing Standards version 3.0.

## **7.4 Activity Based Funding Data Set Specifications**

Full copies of these reference standards are available on the [IHPA web site](#) (<http://www.ihpau.gov.au/internet/ihpa/publishing.nsf/Content/ABF-Price-Model-Reference-Classifications-for-2012-13>).

## **Appendix A – Private Patient Accommodation Adjustment**
