ICD-10-AM/ACHI/ACS Twelfth Edition

Errata 1

**For implementation
1 July 2022**

How to use this document

The ICD-10-AM/ACHI/ACS classification system is used for classifying admitted patient care and comprises the following:

- International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification (ICD-10-AM)

- Australian Classification of Health Interventions (ACHI)

- Australian Coding Standards (ACS).

For the published hardcopy books, ICD-10-AM/ACHI/ACS errata may be issued to correct errors and typographical issues that have been identified since the time of publishing. Users are required to incorporate these corrections when using the published hardcopy books.

This document lists corrections to be made to each of the hardcopy books listed in the following order:

- ICD-10-AM Tabular List

- ICD-10-AM Alphabetic Index

- ACHI Tabular List

- ACHI Alphabetic Index

- Australian Coding Standards

Each correction includes:

- The hardcopy book with a page reference

- Instructions to correct codes or terms (eg add, delete, amend)

- The corrected text without track changes detailed in a grey box

- The existing text with track changes detailed in a white box (eg added text, ~~deleted text~~)

Example of correction

Page #	**Add/Delete/Amend *Instructional* note/code(s)/term(s)**, and
	Add/Delete/Amend *Instructional* note/code(s)/term(s)
	Corrected text.
CODE ∇ 0000	**Code description**
	~~Incorrect~~ Corrected text.

ICD-10-AM Tabular List

Page 358	**Amend *Instructional* note:** *Use additional code (S01.83) to identify open/compound fracture associated with intracranial injury.*
S02 ▽ 1905	**Fracture of skull and facial bones** *Use additional code (S01.81) to identify open/compound fracture [open wound communicating with a fracture].* *Use additional code (S01.83) to identify <u>open/compound</u> fracture associated with intracranial injury.* *Use additional code (S06.01–S06.05) to identify any loss of consciousness.* *Use additional code (S09.9) to identify (closed) head injury NOS.*

Page 368	**Delete fifth character subdivision**, and **Amend code ranges:** The following fifth character subdivisions are for use with subcategories S30.8 and S30.9 to denote the type of superficial injury: ✪ 0 unspecified ✪ 1 abrasion ✪ 2 blister ✪ 3 insect bite ✪ 4 superficial foreign body (splinter) ✪ 8 other
	The following fifth character subdivisions are for use with subcategories S30.8 and S30.9 to denote the type of superficial injury: ✪ 0 unspecified ✪ 1 abrasion ✪ 2 blister ✪ 3 insect bite ✪ 4 superficial foreign body (splinter) ~~✪ 5 contusion~~ ✪ 8 other
S30.8 ~~[0-4, 8]~~ [0-8]	**Other superficial injuries of abdomen, lower back and pelvis** *See subdivisions above* Buttock Epigastric region External genital organs Flank
S30.9 ~~[0-4, 8]~~ [0-8]	**Superficial injury of abdomen, lower back and pelvis, part unspecified** *See subdivisions above*

Page 494	**Amend *Instructional* note:**
	Use additional code (N97.-) to identify infertility.
Z31.32	Other assisted fertilisation methods associated with female reproductive system
	Use additional code (N46 N97.-) to identify infertility.

Page 499	**Amend ACS annotation:**
	Z51.1 Pharmacotherapy session for neoplasm ∇ 0206
Z51.1 ∇ 0044 0206	Pharmacotherapy session for neoplasm
	Maintenance chemotherapy for neoplasm

Page 19	**Amend text:**
	• Multiple episodes within an **'admitted patient stay'**…

0010   CLINICAL DOCUMENTATION AND GENERAL ABSTRACTION GUIDELINES

…

ABSTRACTION FROM OTHER SOURCES OF INFORMATION

…

- Multiple episodes within an **'admitted ~~hospital~~ patient stay'**. In this circumstance, the following conditions may be carried forward and coded as additional diagnoses in latter episodes of care. Refer to the following ACS for guidelines regarding these conditions: …

Page 55	**Delete code**, and
	Amend text in example:
	In this example, E86 and D64.9 are assigned in accordance with ACS 0001, as dehydration and anaemia both equally meet the definition for principal diagnosis. Neoplasm codes are not assigned as the lung carcinoma does not meet the criteria in ACS 0002 (see also ACS 0236). See also ACS 1902 *Adverse effects*. ACHI codes for the IV infusions (hydration and iron infusion) are not assigned as they do not meet the guidelines in ACS 0042.

0044   PHARMACOTHERAPY

…

> **EXAMPLE 3:**
>
> Patient with small cell lung carcinoma admitted for dehydration and anaemia due to recent chemotherapy. Intravenous (IV) hydration was administered on day 1. Patient received an IV iron infusion and was discharged on the following day.
>
> | Codes: | E86 | *Volume depletion* |
> |---|---|---|
> | | D64.9 | *Anaemia, unspecified* |
> | | Y43.3 | *Other antineoplastic drugs causing adverse effects in therapeutic use* |
> | | Y92.23 | *Place of occurrence, health service area, not specified as this facility* |
> | | ~~96199-19 [1920]~~ | ~~*Intravenous administration of pharmacological agent, other and unspecified pharmacological agent*~~ |
>
> In this example, E86 and D64.9 are assigned in accordance with ACS 0001, as dehydration and anaemia both equally meet the definition for principal diagnosis. Neoplasm codes are not assigned as the lung carcinoma does not meet the criteria in ACS 0002 (see also ACS 0236). ~~96199-19 [1920] is assigned in accordance with ACS 0042. An ACHI code for IV hydration is not assigned as it does not meet the criteria in ACS 0042.~~ See also ACS 1902 *Adverse effects*. ACHI codes for the IV infusions (hydration and iron infusion) are not assigned as they do not meet the guidelines in ACS 0042.
