

Development of the Australian Teaching and Training Classification – public consultation

Ramsay Health Care

1. Will the development of the ATTC data set be available to private hospitals to benchmark their contribution to teaching and training activities that go unfunded?
2. In the proposed classifications, could thought be given to clarify under which category Graduate Entry Masters (GEM) students fit?
3. Have private hospitals with a public health service contract been approached as part of the study?
4. In the appendix C page 33. The term “vocational” student can have different meaning and could refer to Vocational Education Training sector students
