Appendix Q – List of Tier 2 Non-Admitted Services Classification classes that are not eligible for the multidisciplinary clinic adjustment	102

1. Overview

1.1 Independent Health and Aged Care Pricing Authority

The Independent Health and Aged Care Pricing Authority (IHACPA) was established under the *National Health Reform Act 2011* (NHR Act) as part of the National Health Reform Agreement (NHRA) to improve health outcomes for all Australians.

By virtue of section 131(1) of the NHR Act, IHACPA is invested with the following public hospital and health care pricing and costing functions relevant to this National Efficient Price Determination 2026–27:

- a) to determine the national efficient price for healthcare services provided by public hospitals where the services are funded on an activity basis
- b) to determine the efficient cost for healthcare services provided by public hospitals where the services are block funded
- c) to develop and specify classification systems for health care and other services provided by public hospitals
- d) to determine adjustments to the national efficient price to reflect legitimate and unavoidable variations in the costs of delivering healthcare services
- e) except where otherwise agreed between the Commonwealth and a state or territory – to determine the public hospital functions that are to be funded in the state or territory by the Commonwealth
- f) to publish a report setting out the national efficient price for the coming year and any other information that would support the efficient funding of public hospitals.

This Determination is an output of the performance of those functions by the Pricing Authority. This Determination does not have any implications for IHACPA's expanded function in providing aged care costing and pricing advice.

In this Determination, 'the Pricing Authority' refers to the governing members and 'IHACPA' refers to the agency.

1.2 Data quality

Under clause I92 of the Addendum to the National Health Reform Agreement (NHRA) 2026–31, the Commonwealth and states and territories will take responsibility for the data integrity within their systems and agree to establish appropriate independent oversight mechanisms for data integrity, to provide certainty to the Australian public about the actual performance of health services.

In accordance with clause I84 of the addendum, the Pricing Authority has relied on a number of different data sources provided by the Commonwealth and states and territories in making this Determination.

Costing information used to determine the national efficient price has been drawn from the 2023–24 National Hospital Cost Data Collection data, as provided by states and territories.

Activity information used to determine the national efficient price has been drawn from a number of national minimum data sets (NMDS) and national best endeavours data sets (NBEDS), including:

- Admitted patient care NMDS
- Admitted subacute and non-acute hospital care NBEDS
- Activity based funding: Mental health care NBEDS
- Non-admitted patient emergency department care NMDS
- Emergency service care NBEDS
- Non-admitted patient NBEDS.

IHACPA continues to review and refine the classification systems used in the national pricing model.

The Hospital Casemix Protocol collection and Commonwealth pharmaceutical program payments data has also informed the removal of the costs of other Commonwealth programs that are not in-scope of the NHRA.

1.3 Legislative basis

In performing the functions outlined above and preparing this Determination, the Pricing Authority has had regard, as required pursuant to sections 131(3) and 132 of the NHR Act, to:

- a) relevant expertise and best practice within Australia and internationally
- b) submissions made at any time by the Commonwealth or a state or territory
- c) the need to ensure:
 - i. reasonable access to healthcare services
 - ii. safety and quality in the provision of healthcare services
 - iii. continuity and predictability in the cost of healthcare services
 - iv. the effectiveness, efficiency and financial sustainability of the public hospital system
- d) the range of public hospitals and the variables affecting the actual cost of providing healthcare services in each of those hospitals
- e) relevant intergovernmental agreements (including the NHRA and the Addendum to the NHRA 2026–31).

In February 2026, all Australian governments signed the Addendum to the NHRA 2026–31, which amended the public hospital financing arrangements in the NHRA for the period from 1 July 2026 to 30 June 2031.

In accordance with clause A63 of the Addendum to the NHRA 2026–31, this Determination has been developed using the parameters previously agreed upon by all Australian governments under the Addendum to the NHRA 2020–26, and will apply for funding calculations for the 2026–27 financial year.

IHACPA will consider changes from the Addendum to the NHRA 2026–31 in future determinations.

1.4 Terminology

Although the Pricing Authority aims to use plain English to make its documents accessible to a wide audience, the subject matter of this Determination requires the use of some specialised terms. For ease of reference, the meaning of those terms is set out in a [glossary](#) available on the IHACPA website.

2. National Efficient Price Determination 2026–27

2.1 The national efficient price

The national efficient price (NEP) is \$7,418 per national weighted activity unit 2026–27 (NWAU(26)).

2.2 Calculation of the national efficient price

The NEP is based on the average cost of public hospital activity in the 2023–24 financial year of \$6,283 per NWAU(26), indexed at a rate of 5.5% per annum, plus an additional 0.54% to account for increases in the minimum superannuation guarantee between 2023–24 and 2025–26.

Consistent with clause A59(f) of the Addendum to the National Health Reform Agreement 2026–31, in calculating the NEP, the following Commonwealth funded programs have been removed prior to determining the underlying cost data of the 2023–24 reference cost:

- highly specialised drugs – section 100 funding (\$1,601.4 million in the 2023–24 financial year)
- pharmaceutical reform agreements – efficient funding of chemotherapy (section 100 funding) (\$834.4 million in the 2023–24 financial year)
- pharmaceutical reform agreements – Pharmaceutical Benefits Scheme Access Program (\$432.8 million in the 2023–24 financial year).

Where blood expenditure has been reported in the National Hospital Cost Data Collection by states and territories this has also been removed, as Commonwealth funding for this program is provided directly to the National Blood Authority. In 2023–24 this amounted to \$442.1 million.

2.3 Price of an activity-based funding activity

The price of an activity-based funding (ABF) activity is calculated using the following formula, with adjustments applied as applicable:

Price of an admitted acute ABF activity =

$$\{[PW \times A_{Paed} \times (1 + A_{Res} + A_{Ind} + A_{RT} + A_{Dia}) \times (1 + A_{Treat}) + (A_{ICU} \times ICU \text{ hours})] - [(PW + A_{ICU} \times ICU \text{ hours}) \times A_{PPS} + LOS \times A_{Acc}] - PW \times A_{HAC} - PW_{AHR} \times R_{AHR}\} \times NEP$$

Price of an admitted subacute and non-acute ABF activity =

$$\{[PW \times (1 + A_{Res} + A_{Ind} + A_{RT} + A_{Dia}) \times (1 + A_{Treat})] - [PW \times A_{PPS} + LOS \times A_{Acc}]\} \times NEP$$

Price of an admitted mental health care ABF activity =

$$\{[PW \times A_{Paed} \times (1 + A_{Res} + A_{Ind}) \times (1 + A_{Treat})] - [PW \times A_{PPS} + LOS \times A_{Acc}]\} \times NEP$$

Price of a community mental health care ABF activity =

$$\{PW \times (1 + A_{Res} + A_{Ind}) \times (1 + A_{Treat})\} \times NEP$$

Price of a non-admitted ABF activity =

$$\{PW \times A_{Paed} \times (1 + A_{Res} + A_{Ind} + A_{NMC}) \times (1 + A_{Treat})\} \times NEP$$

Price of an emergency department ABF activity =

$$\{PW \times (1 + A_{Res} + A_{Ind}) \times (1 + A_{Treat})\} \times NEP$$

Price of an emergency service ABF activity =

$$\{PW \times (1 + A_{Treat})\} \times NEP$$

Where:

A_{Paed}	means the paediatric adjustment
A_{Res}	means each or any patient residential remoteness area adjustment
A_{Ind}	means the Indigenous adjustment
A_{RT}	means the radiotherapy adjustment
A_{Dia}	means the dialysis adjustment
A_{NMC}	means the multidisciplinary clinic adjustment
A_{Treat}	means each or any patient treatment remoteness area adjustment
A_{ICU}	means the intensive care unit adjustment
A_{PPS}	means the private patient service adjustment
A_{Acc}	means the private patient accommodation adjustment applicable to the state of hospitalisation and length of stay
A_{HAC}	means the hospital acquired complications adjustment
R_{AHR}	means the avoidable hospital readmission risk adjustment factor
ICU hours	means the number of hours spent by a person within a specified intensive care unit
LOS	means the length of stay in hospital (in days)
NEP	means the national efficient price 2026–27
PW	means the price weight for an ABF activity as set out in Appendix H (for admitted acute), Appendix I (for admitted subacute and non-acute), Appendix J (for admitted mental health care), Appendix K (for community mental health care), Appendix L (for non-admitted), Appendix M (for emergency department) or Appendix N (for emergency services)
PW_{AHR}	means the price weight for an ABF activity of a linked avoidable hospital readmission

In the event that the application of the adjustments relating to private patients, hospital acquired complications, or avoidable hospital readmissions returns a negative NWAU(26) value for a

particular episode, the NWAU(26) value is held to be zero – that is, negative NWAU(26) values are not permitted for any episodes under the national pricing model.

3. In-scope public hospital services

3.1 Overall scope

In accordance with section 131(1)(f) of the *National Health Reform Act 2011* (Cth) (NHR Act) and clauses A100–A110 of the Addendum to the National Health Reform Agreement 2026–31, the scope of public hospital services eligible for Commonwealth funding are:

- all admitted services, including hospital in the home programs, forensic mental health inpatient services, and virtually provided care
- all emergency care services provided by a recognised emergency department service, including virtually provided care, or other emergency care service (excluding ambulance services)
- specialist outpatient clinic services
- other non-admitted patient services, including new models of care or service delivery, outpatient care, mental health, subacute services or other services that directly substitute or directly reduce demand for hospital services, regardless of setting, provider, or mode of delivery, including:
 - community and residential mental health care services, that could reasonably be considered a public hospital service in accordance with clauses A18–A24 of the Addendum to the National Health Reform Agreement 2020–26.

In accordance with clause A63 of the addendum, expansions to the scope of public hospital services eligible for Commonwealth funding will inform the General List of In-Scope Public Hospital Services Eligibility Policy, assessment process and determinations for 2027–28.

3.2 Interpretive guidelines for in-scope non-admitted patient services and non-admitted mental health care services

In line with the NHR Act and the addendum, non-admitted patient services (including physical chronic disease management and community-based allied health programs) and non-admitted mental health care services (including community and residential mental health care services) considered in scope will have all or most of the following attributes:

- be closely linked to the clinical services and clinical governance structures of a public hospital (for example, integrated area mental health care services, step-up/step-down mental health care services and crisis assessment teams)
- target patients with conditions where hospital treatment is generally required and a primary care setting is not suitable, including chronic conditions
- demonstrate regular and intensive contact with the target group (an average of 8 or more service events per patient or service contacts per consumer per annum)
- demonstrate the operation of formal discharge protocols within the program

- demonstrate either regular enrolled patient admission to hospital or regular active interventions which have the primary purpose of preventing hospital admissions.

3.3 Non-admitted patient services

The listing of in-scope non-admitted patient services is independent of the service setting in which they are provided (for example, at a hospital, in the community, in a person's home). This means that in-scope services can be provided on an outreach basis.

To be included as an in-scope non-admitted patient service, the service must meet the definition of a service event, which is:

‘an interaction between one or more healthcare provider/s with one non-admitted patient, which must contain therapeutic/clinical content and result in a dated entry in the patient's medical record.’¹

Consistent with clauses I42 and I43 of the addendum, the Pricing Authority will conduct analysis to determine if services are transferred from the community to public hospitals for the dominant purpose of making services eligible for Commonwealth funding.

There are 2 broad categories of in-scope public hospital non-admitted patient services:

- A. specialist outpatient clinic services
- B. other non-admitted patient services.

Category A: Specialist outpatient clinic services – Tier 2 Non-Admitted Services Classification classes in the 10, 20 and 30 series

This comprises all clinics in the Tier 2 Non-Admitted Services Classification classes in the 10, 20 and 30 series. However, the general practice and primary care (20.06) clinic is considered by the Pricing Authority as not eligible for Commonwealth funding as a public hospital service.

Category B: Other non-admitted patient services and non-medical specialist outpatient clinics – Tier 2 Non-Admitted Services Classification classes in the 40 series

To be eligible for Commonwealth funding as an ‘other non-admitted patient service’ or a 40 series Tier 2 Non-Admitted Services Classification non-admitted patient service, a service must be:

- a) closely related to an inpatient admission or an emergency department attendance; or
- b) intended to substitute for an inpatient admission or emergency department attendance; or
- c) expected to improve the health or better manage the symptoms of persons with physical or mental health conditions who have a history of frequent hospital attendance or admission.

Prior to preparing this National Efficient Price Determination 2026–27, jurisdictions were invited to submit evidence for additional services to be included or excluded from the list based on the criteria above. Decisions by the Pricing Authority to include or exclude services from the list have been incorporated into this Determination.

¹ A non-admitted patient discussed at a multidisciplinary case conference may be counted as a non-admitted patient service event when the patient is not present. Further detail is available on the [IHACPA website](#).

The following clinics are considered by the Pricing Authority as not eligible for Commonwealth funding as a public hospital service under this category:

- 40.02 *Aged care assessment*
- 40.08 *Primary health care*
- 40.27 *Family planning*
- 40.33 *General counselling*.

3.4 Community mental health care services

To be eligible for Commonwealth funding as a 'community mental health care service', a service must be a public hospital service that meets the definition of mental health care (as defined in the Activity based funding: Mental health care national best endeavours data set), which is:

'Care in which the primary clinical purpose or treatment goal is improvement in the symptoms and/or psychosocial, environmental and physical functioning related to a mental health consumer. Mental health care:

- is delivered under the management of, or regularly informed by, a clinician with specialised expertise in mental health;
- is evidenced by an individualised formal mental health assessment and the implementation of a documented mental health plan; and
- may include significant psychosocial components, including family and carer support.

This includes services provided as assessment only activities.'

Community mental health care services are provided to consumers in the community (also known as ambulatory) setting, rather than admitted or residential settings. However, in-reach service contacts from specialised mental health community units into specialised mental health care admitted patient units are considered in-scope, where they are provided as part of a community mental health episode of care.

Consistent with clauses I42 and I43 of the addendum, the Pricing Authority will conduct analysis to determine if services are transferred from the community to public hospitals for the dominant purpose of making services eligible for Commonwealth funding.

4. Price weights

4.1 Price weights

Price weights expressed as national weighted activity unit 2026–27 (NWAU(26)) are set out in **Appendices H to N** by classification.

4.2 Classification systems

The classification systems used are:

- Australian Refined Diagnosis Related Groups Version 12.0
- Australian National Subacute and Non-Acute Patient Classification Version 5.0
- Australian Mental Health Care Classification Version 1.1
- Tier 2 Non-Admitted Services Classification Version 10.0
- Australian Emergency Care Classification Version 1.1
- Urgency Disposition Groups Classification Version 1.3.

4.3 Shadow pricing

Clause A98 of the Addendum to the National Health Reform Agreement 2026–31 stipulates that the Independent Health and Aged Care Pricing Authority will use transitional arrangements when developing significant new funding streams, classification systems or pricing methodologies, including shadow pricing for a period of up to 2 years or a shorter period agreed with the Commonwealth and a majority of states and territories.

For this National Efficient Price Determination 2026–27, there are no classification changes being shadow priced.

5. Adjustments

5.1 Adjustments

Adjustments to price weights, expressed as national weighted activity unit 2026–27 (NWAU(26)) are to be applied in the manner and in the order indicated by the formula for determining the NWAU(26) value (price) of an activity-based funding (ABF) activity (refer to Chapter 2).

5.2 Precedence of adjustments

Adjustments have the following order of precedence for application:

- a) paediatric adjustment; then
- b) patient residential remoteness area² adjustment; then
- c) Indigenous adjustment; then
- d) radiotherapy adjustment; then
- e) dialysis adjustment; then
- f) multidisciplinary clinic adjustment; then
- g) patient treatment remoteness area² adjustment; then
- h) intensive care unit (ICU) adjustment; then
- i) private patient service adjustment; then
- j) private patient accommodation adjustment; then
- k) hospital acquired complication (HAC) adjustment; then
- l) avoidable hospital readmission risk adjustment factor.

Circumstances in which adjustments are to be applied are described in **Table 1**.

² As defined by the [Australian Statistical Geography Standard \(ASGS\) Edition 3](#).

Table 1. Adjustments

Name	Context		Amount to be applied
Paediatric adjustment	Where an ABF activity:	is in respect of a person who: <ul style="list-style-type: none"> • is aged up to and including 17 years; and • is treated by a specialised children’s hospital (Appendix E) as an admitted acute, admitted mental health care or non-admitted patient. 	Refer to column headed paediatric adjustment in the tables of admitted acute price weights (Appendix H) and non-admitted price weights (Appendix L) Admitted mental health care patient: 111%
Patient residential remoteness area adjustment – outer regional area		is in respect of a person whose residential address is within an area that is classified as being outer regional.	Admitted acute, admitted subacute and non-acute, admitted mental health care, community mental health care or non-admitted patient: 10%
Patient residential remoteness area adjustment – remote area		is in respect of a person whose residential address is within an area that is classified as being remote.	Admitted acute, admitted subacute and non-acute, admitted mental health care, community mental health care or non-admitted patient: 22% Emergency department patient: 36%
Patient residential remoteness area adjustment – very remote area		is in respect of a person whose residential address is within an area that is classified as being very remote.	Admitted acute, admitted subacute and non-acute, admitted mental health care, community mental health care or non-admitted patient: 34% Emergency department patient: 36%
Indigenous adjustment		is in respect of a person who identifies as being of Aboriginal and/or Torres Strait Islander origin.	Admitted acute, admitted subacute and non-acute, admitted mental health care, community mental health care, emergency department or non-admitted patient: 2%
Radiotherapy adjustment		is in respect of a person with a specified Australian Classification of Health Interventions (ACHI) Thirteenth Edition radiotherapy intervention code (Appendix B) assigned.	Admitted acute or admitted subacute and non-acute patient: 43%

Name	Context		Amount to be applied
Dialysis adjustment	Where an ABF activity:	is in respect of a person with a specified ACHI Thirteenth Edition dialysis intervention code (Appendix C) who is not assigned to the Australian Refined Diagnosis Related Group (AR-DRG) L61Z <i>Haemodialysis</i> or AR-DRG L68Z <i>Peritoneal dialysis</i> .	Admitted acute or admitted subacute and non-acute patient: 23%
Multidisciplinary clinic adjustment		is in respect of a non-admitted service event where 3 or more healthcare providers (each of a different specialty) are present, as identified using the non-admitted 'multiple healthcare provider indicator' that is not assigned to a Tier 2 Non-Admitted Services Classification class listed in Appendix Q .	Non-admitted patient: 64%
Patient treatment remoteness area adjustment – remote area		is in respect of a person who receives care in a hospital which is within an area that is classified as being remote.	Admitted acute, admitted subacute and non-acute, admitted mental health care, community mental health care or non-admitted patient: 4% Emergency department or emergency service patient: 3%
Patient treatment remoteness area adjustment – very remote area		is in respect of a person who receives care in a hospital which is within an area that is classified as being very remote.	Admitted acute, admitted subacute and non-acute, admitted mental health care, community mental health care or non-admitted patient: 37% Emergency department or emergency service patient: 3%
ICU adjustment		is in respect of an admitted acute patient who: <ul style="list-style-type: none"> • is not represented by a newborn/neonate AR-DRG identified as 'bundled ICU' in the tables of price weights (Appendix H); but • has spent time within a specified ICU (Appendix D). 	0.0446 NWAU(26) per hour spent by that admitted acute patient within the applicable ICU

Name	Context		Amount to be applied
Private patient service adjustment	Where an ABF activity:	is in respect of an eligible admitted private patient.	Admitted acute, admitted subacute and non-acute or admitted mental health care patient: refer to Appendix F for applicable adjustment
Private patient accommodation adjustment		is in respect of an eligible admitted private patient.	Admitted acute, admitted subacute and non-acute or admitted mental health care patient: refer to Appendix F for applicable adjustment
HAC adjustment		is in respect of an admitted acute episode where one or more HAC is present. If more than one HAC is present, the larger of the HAC adjustments applies.	Admitted acute episode with one or more HAC: refer to Appendix O for applicable adjustments
Avoidable hospital readmission risk adjustment factor		<p>is in respect of an admitted acute episode where the patient was discharged from hospital and admitted again within a certain time interval and the readmission is clinically related to the index admission and had the potential to be avoided through improved clinical management and/or appropriate discharge planning in the index admission.</p> <p>The avoidable hospital readmission risk adjustment factor is applied to the price of the readmission episode, and the result is used to adjust the index episode.</p>	Admitted acute episode identified as an avoidable hospital readmission: refer to Appendix P for applicable risk adjustment factors

6. Safety and quality

6.1 Sentinel events

In accordance with a ministerial direction issued on 16 February 2017 under section 226 of the *National Health Reform Act 2011* (Cth) and consistent with clause A91 of the Addendum to the National Health Reform Agreement (NHRA) 2026–31, any public hospital episode that includes a sentinel event will not be funded.

Definition

Sentinel events are a subset of adverse patient safety events that are wholly preventable and result in serious harm to, or death of, a patient.

In 2017, the Australian Commission on Safety and Quality in Health Care undertook a review of the Australian Sentinel Events List on behalf of the Australian Government and state and territory governments. The updated Australian Sentinel Events List (Version 2.0) was endorsed by Australian health ministers in December 2018.

Version 2.0 of the Australian Sentinel Events List will be used for pricing in 2026–27. [Version 2.0 of the Australian Sentinel Events List](#), including further information on its development and specifications, is available on the Commission's website.

States and territories are required to report these events to the Independent Health and Aged Care Pricing Authority (IHACPA) and the Administrator of the National Health Funding Pool. These episodes will be assigned zero national weighted activity unit 2026–27 (NWAU(26)).

6.2 Hospital acquired complications

In accordance with the Addendum to the NHRA 2020–26, the funding level for admitted acute episodes will be reduced where a hospital acquired complication (HAC) is present. Separate adjustments have been determined for each HAC. Where an episode contains multiple HACs, the HAC with the largest adjustment determines the funding adjustment.

IHACPA has determined HAC adjustments based on the parameters specified in the Addendum to the NHRA 2020–26, in accordance with clause A63 of the Addendum to the NHRA 2026–31. According to clause A90 of the Addendum to the NHRA 2026–31, absolute pricing penalties for HACs will not be applied to states and territories, and will instead be shadow priced, while the Commission is undertaking a review of the safety and quality measures as outlined in clauses D51–D55.

Definition

A HAC refers to a complication which is acquired in hospital for which clinical risk mitigation strategies may reduce (but not necessarily eliminate) the risk of that complication occurring. The list of HACs was determined by a joint working group of the Commission and IHACPA.

The HACs are as follows:

- pressure injury
- falls resulting in fracture or intracranial injury
- healthcare-associated infection
- surgical complications requiring unplanned return to theatre
- unplanned intensive care unit admission³
- respiratory complications
- venous thromboembolism
- renal failure
- gastrointestinal bleeding
- medication complications
- delirium
- incontinence
- endocrine complications
- cardiac complications
- third and fourth degree perineal laceration during delivery⁴
- neonatal birth trauma⁴.

Version 3.2 of the HAC list will be used for pricing in 2026–27. [Further information on the HAC list](#), including the diagnosis codes used to identify each HAC, is available on the Commission’s website.

The funding adjustment for HACs has been risk adjusted to take account of the increased predisposition of some patients to experiencing a HAC during their hospital stay and adjusts the reduction in funding accordingly.

Further information on the risk adjustment model for HACs, including the risk factors for each HAC group, is contained in the [Risk adjustments for hospital acquired complications technical specifications](#) on the IHACPA website.

The funding adjustments for HACs are at **Appendix O**.

6.3 Avoidable hospital readmissions

Under the Addendum to the NHRA 2020–26, IHACPA was required to develop a pricing model for avoidable hospital readmissions, for implementation by 1 July 2021.

IHACPA has determined avoidable hospital readmission adjustments based on the parameters specified in the Addendum to the NHRA 2020–26, in accordance with clause A63 of the Addendum to the NHRA 2026–31. According to clause A90 of the Addendum to the NHRA 2026–31, absolute

³ No funding adjustment for ‘unplanned intensive care unit admission’ will be applied in 2026–27 as it cannot be identified in current data sets.

⁴ No funding adjustment for ‘third degree perineal laceration during delivery’ and ‘neonatal birth trauma’ will be applied in 2026–27 due to small patient cohorts or other issues that have prevented development of a robust risk adjustment approach at this time.

pricing penalties for avoidable hospital readmissions will not be applied to states and territories, and will instead be shadow priced, while the Commission is undertaking a review of the safety and quality measures as outlined in clauses D51–D55.

Definition

An avoidable hospital readmission occurs when a patient has been discharged from hospital (index admission) and has a subsequent unplanned admission that is related to the index admission and was potentially preventable. Reducing avoidable hospital readmissions supports better health outcomes, improves patient safety and leads to greater efficiency in the health system.

The Commission was tasked with developing and maintaining a nationally consistent definition of avoidable hospital readmissions. The list of clinical conditions considered to be avoidable hospital readmissions was approved by the Australian Health Ministers' Advisory Council in June 2017.

The avoidable hospital readmission conditions are as follows:

- pressure injury
- infections
- surgical complications
- respiratory complications
- venous thromboembolism
- renal failure
- gastrointestinal bleeding
- medication complications
- delirium
- cardiac complications
- other (constipation, nausea and vomiting).

Version 3.0 of the avoidable hospital readmissions list will be used for pricing in 2026–27. [Further information on the AHR list](#), including the diagnosis codes used to identify each readmission condition, is available on the Commission's website.

The funding adjustment for avoidable hospital readmissions has been risk adjusted to account for the increased predisposition of some patients to experiencing an avoidable hospital readmission during their hospital stay and adjusts the reduction in funding accordingly with the use of a risk adjustment factor.

Further information on the risk adjustment model for avoidable hospital readmissions, including the risk factors for each readmission condition, is contained in the [Risk adjustments for avoidable hospital readmissions technical specifications](#) on the IHACPA website.

The risk adjustment factors for avoidable hospital readmissions are at **Appendix P**.

7. Pricing for private patients in public hospitals

7.1 Clauses

The Addendum to the National Health Reform Agreement (NHRA) 2026–31 includes clauses A15, A30, and A67 with the intent to neutralise revenue at the hospital level for public and private patients.

In accordance with clauses A30(c) and A63 of the addendum, the Independent Health and Aged Care Pricing Authority (IHACPA) has made no changes to the existing private patient neutrality funding adjustment methodology for the National Efficient Price Determination 2026–27 (NEP26), and will consider changes from the addendum in future determinations. The existing private patient neutrality funding adjustment, which gives effect to the requirements of clause A44 of the Addendum to the NHRA 2020–26, will continue to apply for the 2026–27 financial year.

The Administrator of the National Health Funding Pool may make a further adjustment to the price of an admitted activity to account for private insurance benefits paid for activity in public hospitals that has not been accounted for by the combined adjustments in the national efficient price (NEP) and state or territory funding models.

In making such an adjustment, the NEP will not be increased to a value above the price as defined by the formulas in this Determination.

7.2 Definition

IHACPA has developed a definition of financial neutrality (clause A15) and payment parity (clause A30) in terms of revenue per national weighted activity unit 2026–27 (NWAU(26)) (excluding private patient adjustments).

That is, the sum of revenue a local hospital network (LHN) receives for public patient NWAU(26) (Commonwealth and state or territory activity-based funding (ABF) payments) should be equal to payments made for a LHN service for private patient NWAU(26) (Commonwealth and state or territory ABF payments, insurer payments and Medicare Benefit Schedule payments).

7.3 Implementation

Private patient revenue is reported through the Hospital Casemix Protocol (HCP) data set; however, this data is not yet considered sufficiently comprehensive to inform implementation of private patient neutrality in the Administrator's annual reconciliation. Until such time that HCP data is available to inform the Administrator's annual reconciliation, the private patient neutrality clauses will be implemented through:

- a) The application of state based service adjustments for private patients published within this Determination.

b) Confirmation by states and territories of:

- payments made to each LHN for private patients (aggregate)
- payments made to each LHN for public patients (aggregate)
- LHN private patient revenue targets.

The private funding neutrality adjustment will be calculated as an adjustment to Commonwealth funding pertaining to admitted private patient NWAU(26) equal to the following:

Private funding neutrality adjustment =

$$\left(\frac{CC_{Pu} + SC_{Pu}}{NWAU_{Pu}} - \frac{CC_{Pr} + SC_{Pr} + P_{Pr}}{NWAU_{Pr} + TA_{PPS} + TA_{Acc}} \right) \times (NWAU_{Pr} + TA_{PPS} + TA_{Acc})$$

Where:

CC_{Pu}	means growth in the aggregate Commonwealth contribution for public patient activity
SC_{Pu}	means growth in the aggregate state or territory contribution for public patient activity
NWAU_{Pu}	means growth in the aggregate national weighted activity units for public patient activity
CC_{Pr}	means growth in the aggregate Commonwealth contribution for private patient activity
SC_{Pr}	means growth in the aggregate state or territory contribution for private patient activity
P_{Pr}	means growth in the aggregate private patient revenue from private health insurers and Medicare Benefits Schedule payments related to private patient activity
NWAU_{Pr}	means growth in the aggregate national weighted activity units for private patient activity
TA_{PPS}	means growth in the aggregate national weighted activity unit value for private patient service adjustments
TA_{Acc}	means growth in the aggregate national weighted activity unit value for private patient accommodation adjustments

In the event that the private funding neutrality adjustment is greater than zero, then the private funding neutrality adjustment will be equal to zero. In other words, the private funding neutrality adjustment can only be negative.

8. National Pricing Model Technical Specifications

8.1 Technical specifications

The detailed [National Pricing Model Technical Specifications](#) are available on the Independent Health and Aged Care Pricing Authority's website.

9. Standards

The following standards apply to the use of activity-based funding in the 2026–27 financial year.

9.1 Classifications

9.1.1 Admitted acute patients

The International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification (ICD-10-AM), Australian Classification of Health Interventions (ACHI), Australian Coding Standards (ACS) (collectively known as ICD-10-AM/ACHI/ACS) Thirteenth Edition.

Australian Refined Diagnosis Related Groups Version 12.0.

9.1.2 Admitted subacute and non-acute patients

Australian National Subacute and Non-Acute Patient Classification Version 5.0.

9.1.3 Admitted mental health care patients

Australian Mental Health Care Classification Version 1.1.

9.1.4 Community mental health care consumers

Australian Mental Health Care Classification Version 1.1.

9.1.5 Non-admitted patients

Tier 2 Non-Admitted Services Classification Version 10.0.

9.1.6 Emergency department patients

Australian Emergency Care Classification Version 1.1.

9.1.7 Emergency service patients

Urgency Disposition Groups Classification Version 1.3.

The [classification reference standards](#) are available on the Independent Health and Aged Care Pricing Authority's (IHACPA) website.

9.2 Intensive care units

For the 2026–27 national efficient price, IHACPA has determined the specified intensive care units that are eligible to receive the intensive care unit adjustment. The list of specified intensive care units is included at **Appendix D**.

9.3 Activity-based funding data set specifications

The [activity-based funding data set specifications](#) are available on the IHACPA website.

10. Back-casting

The Addendum to the National Health Reform Agreement 2026–31 specifies updates to the calculation of Commonwealth funding for the 2026–27 financial year that no longer require the use of back-casting parameters to account for the methodological changes incorporated in this Determination.

The Independent Health and Aged Care Pricing Authority will provide back-casting advice to the Administrator of the National Health Funding Pool if requested.

Appendix A – General List of In-Scope Public Hospital Services eligible for Commonwealth funding under the National Health Reform Agreement

In accordance with section 131(1)(f) of the *National Health Reform Act 2011* (Cth) and clauses A100–A110 of the Addendum to the National Health Reform Agreement (NHRA) 2026–31, the scope of public hospital services eligible for Commonwealth funding are:

- all admitted services, including hospital in the home programs, forensic mental health inpatient services, and virtually provided care
- all emergency care services provided by a recognised emergency department service, including virtually provided care, or other emergency care service (excluding ambulance services)
- specialist outpatient clinic services
- other non-admitted patient services, including new models of care or service delivery, outpatient care, mental health, subacute services or other services that directly substitute or directly reduce demand for hospital services, regardless of setting, provider, or mode of delivery, including:
 - community and residential mental health care services, that could reasonably be considered a public hospital service in accordance with clauses A18–A24 of the Addendum to the National Health Reform Agreement 2020–26.

Category A: Specialist outpatient clinic services – Tier 2 Non-Admitted Services Classification classes in the 10, 20 and 30 series

The Pricing Authority has determined the following services as eligible for Commonwealth funding as a public hospital service under ‘Category A: Specialist outpatient clinic services’.

10. Procedure clinics

- 10.01 *Hyperbaric medicine*
- 10.02 *Interventional imaging*
- 10.03 *Minor surgical*
- 10.04 *Dental*
- 10.05 *Angioplasty/angiography*
- 10.06 *Endoscopy - gastrointestinal*
- 10.07 *Urological and gynaecological scope procedures*
- 10.08 *Endoscopy - orthopaedic*
- 10.09 *Endoscopy - respiratory/ear, nose and throat*
- 10.10 *Renal dialysis - hospital delivered*
- 10.11 *Chemotherapy treatment*
- 10.12 *Radiation therapy - treatment*
- 10.13 *Minor medical procedures*
- 10.14 *Pain management interventions*
- 10.15 *Renal dialysis - haemodialysis - home delivered*
- 10.16 *Renal dialysis - peritoneal dialysis - home delivered*
- 10.17 *Total parenteral nutrition - home delivered*

- 10.18 *Enteral nutrition - home delivered*
- 10.19 *Ventilation - home delivered*
- 10.20 *Radiation therapy - simulation and planning*
- 10.21 *COVID-19 vaccination*
- 10.22 *Subcutaneous immunoglobulin (SCIg) infusion therapy - home delivered*

20. Medical consultation clinics

- 20.01 *Transplants*
- 20.02 *Anaesthetics*
- 20.03 *Pain management*
- 20.04 *Developmental disabilities*
- 20.05 *General medicine*
- 20.07 *General surgery*
- 20.08 *Genetics*
- 20.09 *Geriatric medicine*
- 20.10 *Haematology*
- 20.11 *Paediatric medicine*
- 20.12 *Paediatric surgery*
- 20.13 *Palliative care*
- 20.14 *Epilepsy*
- 20.15 *Neurology*
- 20.16 *Neurosurgery*
- 20.17 *Ophthalmology*
- 20.18 *Ear, nose and throat*
- 20.19 *Respiratory*
- 20.20 *Respiratory - cystic fibrosis*
- 20.21 *Anti-coagulant screening and management*
- 20.22 *Cardiology*
- 20.23 *Cardiothoracic*
- 20.24 *Vascular surgery*
- 20.25 *Gastroenterology*
- 20.26 *Hepatobiliary*
- 20.27 *Craniofacial*
- 20.28 *Metabolic bone*
- 20.29 *Orthopaedics*
- 20.30 *Rheumatology*
- 20.31 *Spinal*
- 20.32 *Breast*
- 20.33 *Dermatology*

- 20.34 *Endocrinology*
- 20.35 *Nephrology*
- 20.36 *Urology*
- 20.37 *Assisted reproductive technology*
- 20.38 *Gynaecology*
- 20.39 *Gynaecological oncology*
- 20.40 *Obstetrics - management of pregnancy without complications*
- 20.41 *Immunology*
- 20.42 *Medical oncology - consultation*
- 20.43 *Radiation therapy - consultation*
- 20.44 *Infectious diseases*
- 20.45 *Psychiatry*
- 20.46 *Plastic and reconstructive surgery*
- 20.47 *Rehabilitation*
- 20.48 *Multidisciplinary burns clinic*
- 20.49 *Geriatric evaluation and management*
- 20.50 *Psychogeriatric*
- 20.51 *Sleep disorders*
- 20.52 *Addiction medicine*
- 20.53 *Obstetrics - management of complex pregnancy*
- 20.54 *Maternal fetal medicine*
- 20.55 *Telehealth - patient location*
- 20.56 *Multidisciplinary case conference - patient not present*
- 20.57 *COVID-19 response*
- 20.58 *Long COVID*
- 20.59 *Voluntary assisted dying*

30. Stand-alone diagnostic clinics

- 30.01 *General imaging*
- 30.02 *Magnetic resonance imaging*
- 30.03 *Computerised tomography*
- 30.04 *Nuclear medicine*
- 30.05 *Pathology (microbiology, haematology, biochemistry)*
- 30.06 *Positron emission tomography*
- 30.07 *Mammography screening*
- 30.08 *Clinical measurement*
- 30.09 *COVID-19 response diagnostics*

Category B: Other non-admitted patient services and non-medical specialist outpatient clinics – Tier 2 Non-Admitted Services Classification classes in the 40 series

40. Allied health and/or clinical nurse specialist interventions clinics

- 40.03 *Aids and appliances*
- 40.04 *Clinical pharmacy*
- 40.05 *Hydrotherapy*
- 40.06 *Occupational therapy*
- 40.07 *Pre-admission and pre-anaesthesia*
- 40.09 *Physiotherapy*
- 40.10 *Sexual health*
- 40.11 *Social work*
- 40.12 *Rehabilitation*
- 40.13 *Wound management*
- 40.14 *Neuropsychology*
- 40.15 *Optometry*
- 40.16 *Orthoptics*
- 40.17 *Audiology*
- 40.18 *Speech pathology*
- 40.21 *Cardiac rehabilitation*
- 40.22 *Stomal therapy*
- 40.23 *Nutrition/dietetics*
- 40.24 *Orthotics*
- 40.25 *Podiatry*
- 40.28 *Midwifery and maternity*
- 40.29 *Psychology*
- 40.30 *Alcohol and other drugs*
- 40.31 *Burns*
- 40.32 *Continence*
- 40.35 *Palliative care*
- 40.36 *Geriatric evaluation and management*
- 40.37 *Psychogeriatric*
- 40.38 *Infectious diseases*
- 40.39 *Neurology*
- 40.40 *Respiratory*
- 40.41 *Gastroenterology*
- 40.42 *Circulatory*

- 40.43 *Hepatobiliary*
- 40.44 *Orthopaedics*
- 40.45 *Dermatology*
- 40.46 *Endocrinology*
- 40.47 *Nephrology*
- 40.48 *Haematology, immunology and rheumatology*
- 40.49 *Gynaecology*
- 40.50 *Urology*
- 40.51 *Breast*
- 40.52 *Oncology*
- 40.53 *General medicine*
- 40.54 *General surgery*
- 40.55 *Paediatrics*
- 40.56 *Falls prevention*
- 40.57 *Cognition and memory*
- 40.58 *Hospital avoidance programs*
- 40.59 *Post-acute care*
- 40.60 *Pulmonary rehabilitation*
- 40.61 *Telehealth - patient location*
- 40.62 *Multidisciplinary case conference - patient not present*
- 40.63 *COVID-19 response*
- 40.64 *Chronic pain management*
- 40.65 *Violence, abuse and neglect services*
- 40.66 *Genetic counselling*
- 40.67 *Long COVID*
- 40.68 *Supervised administration of opioid substitution therapy*
- 40.69 *Voluntary assisted dying*

Non-admitted public hospital services for 2026–27 (excluding mental health care services), as reported against the Tier 2 Non-Admitted Services Classification Version 10.0

1. Home and community-based chemotherapy services
2. Chronic disease management/hospital avoidance program targeting:
 - 2.1 Renal impairment
 - 2.2 Respiratory disease
 - 2.3 Cardiovascular disease
 - 2.4 Oncology services
 - 2.5 Stroke
 - 2.6 Cystic fibrosis ambulatory care
 - 2.7 Hepatitis C services

3. Early discharge program services including:
 - 3.1 Postnatal care early discharge programs
 - 3.2 Anti-coagulant post-acute hospital event
4. Fall prevention services targeting patients at high risk of falls
5. Hospital admission risk screening services targeting patients at high-risk of hospital admission
6. Home and community-based lymphoedema services
7. Home dialysis
8. Home and community-based palliative care services including palliative care day hospices
9. Intense home and community-based nutrition support services including:
 - 9.1 Home parenteral nutrition services
 - 9.2 Home-based patients on nasogastric or percutaneous endoscopic gastrostomy tube feeding
10. Home and community peri and postnatal assessment services
11. Post-acute care services including:
 - 11.1 48-hour follow-up services targeting Aboriginal and Torres Strait Islander patients recently discharged from hospital
 - 11.2 Stroke post-acute care programs
12. Home and community-based rehabilitation services including:
 - 12.1 Trauma rehabilitation services
 - 12.2 Pulmonary rehabilitation services
 - 12.3 Cardiac rehabilitation services
 - 12.4 Stroke rehabilitation services
13. Sexual assault services
14. Speech pathology services targeting immediate post discharge patients
15. Stomal therapy

Non-admitted mental health care services for 2026–27

- | | |
|------|--|
| MH1 | Adult integrated specialised community mental health services |
| MH2 | Mental health crisis assessment and treatment (including telephone-based services) |
| MH3 | Dual diagnosis services for patients with comorbid conditions |
| MH4 | Home and community-based eating disorders programs |
| MH5 | Mental health hospital avoidance programs |
| MH6 | Ambulatory mental health care services |
| MH7 | Perinatal and infant mental health services |
| MH8 | Mental health step-up/step-down services |
| MH9 | Mental health telephone triage services |
| MH10 | Older persons community mental health services |
| MH11 | Child and adolescent community mental health services |
| MH12 | Mental Health Co-Response (MH-CORE) programs |

Mental health care delivered in the community setting for 2026–27 will be classified using the Australian Mental Health Care Classification Version 1.1 and be eligible for activity-based funding, except where it is determined to be eligible for block funding.

Mental health care delivered in the residential setting for 2026–27 will be eligible for block funding, where the residential facility meets the definition under the Residential mental health care national minimum data set.

In-scope community and residential mental health care services must be able to be reasonably considered public hospital services in accordance with clauses A18–A24 of the Addendum to the National Health Reform Agreement 2020–26 and not subject to other Commonwealth funding.

A17 List

Under clause A108 of the Addendum to the National Health Reform Agreement 2026–31, services previously determined to be in-scope under clause A17 of the National Health Reform Agreement 2011 (the 'A17 list') are eligible to receive a Commonwealth funding contribution. These services are eligible for Commonwealth funding at the LHN listed in Appendix A of the NEP Determination.

Other public hospital programs

The Pricing Authority has determined that the following program is eligible for Commonwealth funding as a public hospital service, under a block funding arrangement:

State / Territory	LHN	Service type
All states and territories	All LHNs	Telehealth video consultations delivered by emergency departments

Telehealth video consultations delivered by emergency departments were approved for inclusion on the General List of In-Scope Public Hospital Services for 2022–23. At present, only physical presentations to the emergency department are in-scope for the Non-admitted patient emergency department care national minimum data set.

Telehealth video consultations delivered by emergency departments will therefore continue to be block funded as part of the National Efficient Cost Determination for 2026–27. Consideration for inclusion in the national pricing model will be reviewed for future determinations.

Appendix B – List of radiotherapy codes

Table 2. Australian Classification of Health Interventions Thirteenth Edition radiotherapy codes

Intervention codes	Description
15000-00	Radiation treatment, superficial, 1 field
15003-00	Radiation treatment, superficial, 2 or more fields
15012-00	Brachytherapy, eye
15100-00	Radiation treatment, orthovoltage, 1 field
15103-00	Radiation treatment, orthovoltage, 2 or more fields
15224-00	Radiation treatment, megavoltage, 1 field, single modality linear accelerator
15239-00	Radiation treatment, megavoltage, 2 or more fields, single modality linear accelerator
15254-00	Radiation treatment, megavoltage, 1 field, dual modality linear accelerator
15269-00	Radiation treatment, megavoltage, 2 or more fields, dual modality linear accelerator
15303-00	Brachytherapy, intrauterine, low dose rate
15304-00	Brachytherapy, intrauterine, high dose rate
15311-00	Brachytherapy, intravaginal, low dose rate
15312-00	Brachytherapy, intravaginal, high dose rate
15319-00	Brachytherapy, combined intrauterine and intravaginal, low dose rate
15320-00	Brachytherapy, combined intrauterine and intravaginal, high dose rate
15327-00	Brachytherapy with implantation of removable single plane, low dose rate
15327-01	Brachytherapy with implantation of removable single plane, pulsed dose rate
15327-02	Brachytherapy with implantation of removable multiple planes or volume implant, low dose rate
15327-03	Brachytherapy with implantation of removable multiple planes or volume implant, pulsed dose rate
15327-04	Brachytherapy with implantation of permanent implant, 1 to 9 sources
15327-05	Brachytherapy with implantation of permanent implant, 10 or more sources
15327-06	Brachytherapy with implantation of removable single plane, high dose rate
15327-07	Brachytherapy with implantation of removable multiple planes or volume implant, high dose rate
15338-00	Brachytherapy, prostate
15360-00	Brachytherapy, intravascular
15600-00	Stereotactic radiation treatment, single dose
15600-01	Stereotactic radiation treatment, fractionated
15600-02	Hemi body irradiation
15600-03	Total body irradiation
15600-04	Total skin irradiation
16003-00	Administration of a therapeutic dose of Yttrium 90
16009-00	Administration of a therapeutic dose of Iodine 131
16012-00	Administration of a therapeutic dose of Phosphorous 32
16015-00	Administration of a therapeutic dose of Strontium 89
16018-00	Administration of a therapeutic dose of 153 SM-Lexidronan
90764-00	Brachytherapy, intracavitary, low dose rate
90764-01	Brachytherapy, intracavitary, high dose rate
90766-00	Brachytherapy using surface applicators, other sites
90960-00	Administration of a therapeutic dose of other unsealed radioisotope

Appendix C – List of dialysis codes

Table 3. Australian Classification of Health Interventions Thirteenth Edition dialysis codes

Intervention codes	Description
13100-00	Haemodialysis
13100-01	Intermittent haemofiltration
13100-02	Continuous haemofiltration
13100-03	Intermittent haemodiafiltration
13100-04	Continuous haemodiafiltration
13100-05	Haemoperfusion
13100-06	Peritoneal dialysis, short term
13100-07	Intermittent peritoneal dialysis, long term
13100-08	Continuous peritoneal dialysis, long term

Appendix D – Specified intensive care units

Table 4. Specified intensive care units

State / Territory	Name

Appendix G – Provisional weights for very long-stay patients

These price weights are used to calculate national weighted activity unit for patients who are not discharged at 30 June 2027 and have a length of stay of 200 days or more.

The Administrator of the National Health Funding Pool will advise the business rules that will apply for reporting this activity.

Table 10. Price weights for very long-stay patients

Care type	Per diem price weight
Admitted acute	0.3983
Admitted subacute and non-acute	0.1895
Admitted mental health	0.2171

Appendix H – Price weights for admitted acute patients – AR-DRG V12.0

The admitted acute price weights are available as an Excel spreadsheet on the IHACPA website.

Table 11. Admitted acute price weights – Australian Refined Diagnosis Related Groups Version 12.0 (AR-DRG V12.0)

⁷ The price weight for classes 10.15, 10.16, 10.17, and 10.18 are priced on a per calendar month basis - see the national efficient price and national efficient cost online glossary for further information.

⁸ COVID-19 vaccination is not priced by IHACPA but funded under a separate agreement between the Commonwealth and the states and territories.

⁹ Price weights are pegged to the corresponding 20.05 *General medicine* and 40.53 *General medicine* classes pending the availability of data.

¹⁰ These services are not priced as they are bundled to the originating service.

Appendix M – Price weights for emergency department patients – AECC V1.1

The emergency department price weights are available as an Excel spreadsheet on the IHACPA website.

UDG14	Died in emergency department	0.3339
UDG15	Adm_Return visit, planned w any Triage	0.1449
UDG16	N-A Return visit, planned – Triage 1, 2, 3	0.1252
UDG17	N-A Return visit, planned – Triage 4, 5	0.0896

Appendix O – Funding adjustments for hospital acquired complications

The adjustments for hospital acquired complications (HACs) are available as an Excel spreadsheet on the IHACPA website.

Table 18. Funding adjustments for HACs (Version 3.2)

Complication	Complexity group		
	Low	Moderate	High
1. Pressure injury	13.7%	10.1%	9.1%
2. Falls resulting in fracture or intracranial injury	3.2%	1.6%	1.0%
3. Healthcare-associated infection	8.4%	6.6%	5.6%
4. Surgical complications requiring unplanned return to theatre	11.8%	7.0%	5.5%
5. Unplanned intensive care unit admission ¹¹	Nil	Nil	Nil
6. Respiratory complications	13.7%	7.4%	3.5%
7. Venous thromboembolism	12.1%	7.5%	5.8%
8. Renal failure	20.8%	19.7%	19.3%
9. Gastrointestinal bleeding	9.6%	8.3%	8.0%
10. Medication complications	9.5%	3.7%	1.0%
11. Delirium	10.9%	8.2%	5.8%
12. Incontinence	8.6%	6.6%	3.7%
13. Endocrine complications	8.9%	1.7%	1.6%
14. Cardiac complications	12.5%	10.3%	9.5%
15.1. Third degree perineal laceration during delivery ¹¹	Nil	Nil	Nil
15.2. Fourth degree perineal laceration during delivery	34.1%	22.4%	22.4%
16. Neonatal birth trauma ¹¹	Nil	Nil	Nil

¹¹ No funding adjustment for 'Unplanned intensive care unit admission' (5), 'Third degree perineal laceration during delivery' (15.1) or 'Neonatal birth trauma' (16) will be applied in 2026–27 due to small patient cohorts or other issues which have prevented development of a robust risk adjustment approach at this time.

Appendix P – Risk adjustment factors for avoidable hospital readmissions

If an admitted acute patient experiences an avoidable hospital readmission in the same jurisdiction as their initial admission (index episode) then the efficient price of the index episode is reduced. The magnitude of the reduction is the product of the efficient price of the readmission episode and a risk adjustment factor.

To calculate the risk adjustment factor each patient is assigned to a 'Low', 'Moderate' or 'High' complexity group based on the presence of a prescribed set of risk factors for their readmission category. The risk adjustment factor for each complexity group and readmission category is shown in Table 19.

The risk adjustment factors for avoidable hospital readmissions by complexity group, as well as the list of risk factors for each readmission category, are available as Excel spreadsheets on the IHACPA website.

Table 19. Risk adjustment factors for avoidable hospital readmissions (Version 3.0) within the same jurisdiction

Readmission category	Complexity group		
	Low	Moderate	High
1. Pressure injury	100%	34.7%	27.2%
2. Infections	100%	51.4%	41.4%
3. Surgical complications	100%	23.1%	21.6%
4. Respiratory complications	100%	42.7%	34.4%
5. Venous thromboembolism	100%	54.8%	44.9%
6. Renal failure	100%	44.9%	37.6%
7. Gastrointestinal bleeding	100%	40.0%	27.0%
8. Medication complications	100%	43.0%	35.8%
9. Delirium	100%	23.6%	18.3%
10. Cardiac complications	100%	44.4%	37.9%
11. Constipation	100%	39.7%	29.1%
12. Nausea and vomiting	100%	48.3%	32.2%

Appendix Q – List of Tier 2 Non-Admitted Services Classification classes that are not eligible for the multidisciplinary clinic adjustment

Table 20. Tier 2 Non-Admitted Services Classification Version 10.0 (Tier 2 V10.0) classes that are not eligible for the multidisciplinary clinic adjustment

Tier 2 V10.0	Description
10.01	Hyperbaric medicine
10.02	Interventional imaging
10.03	Minor surgical
10.04	Dental
10.05	Angioplasty/angiography
10.06	Endoscopy - gastrointestinal
10.07	Urological and gynaecological scope procedures
10.08	Endoscopy - orthopaedic
10.09	Endoscopy - respiratory/ear, nose and throat
10.10	Renal dialysis - hospital delivered
10.11	Chemotherapy treatment
10.12	Radiation therapy - treatment
10.13	Minor medical procedures
10.14	Pain management interventions
10.15	Renal dialysis - haemodialysis - home delivered
10.16	Renal dialysis - peritoneal dialysis - home delivered
10.17	Total parenteral nutrition - home delivered
10.18	Enteral nutrition - home delivered
10.19	Ventilation - home delivered
10.20	Radiation therapy - simulation and planning
10.21	COVID-19 vaccination
10.22	Subcutaneous immunoglobulin (SCIg) infusion therapy - home delivered
20.48	Multidisciplinary burns clinic
20.56	Multidisciplinary case conference - patient not present
40.62	Multidisciplinary case conference - patient not present
