11:15 am – 11:45am	Morning refreshments
11:45am – 12:45pm	Panel discussion: Transitions in hospital care systems
	<p><i>Hospital systems remain focused on access - moving people quickly through assessment and referral pathways - and on ensuring sufficient hospital bed capacity. At the same time, there are calls for more care to be provided outside hospitals and for greater emphasis on early intervention. This panel will explore whether hospital systems should continue to prioritise access, and how they might transition to providing appropriate care at the right time and achieve high value care.</i></p> <ul style="list-style-type: none">• Dr Michael Wright, President, RACGP• Dr Miranda Shaw, General Manager, RPA Virtual Hospital, NSW Health• Dr Shirley Bowen, Director General, WA Health• Prof Jason Sutherland, Director, Centre for Health Services and Policy, Research School of Population and Public Health, University of British Columbia, Vancouver

3:00pm – 4:00pm	<p>Panel discussion: Transitions through care systems</p> <p><i>Care is often required beyond the decision to discharge from hospital care systems, yet limited attention is placed on how individuals leave acute settings and return to their homes and communities. Health and care systems often struggle to support people following an acute episode. This panel will consider what needs to change to make transitions to aged care and primary care in the community faster, safer, and more stable, and what a more integrated care sector could look like.</i></p> <ul style="list-style-type: none"> • Prof Carmen Huckel Schneider, Deputy Director, Leeder Centre for Health Policy, Economics and Data, University of Sydney • Dr Martin Laverty, Chief Executive Officer, Aruma • Dr Jono Hoogerbrug, Clinical Informatics Director, Health New Zealand, and Board of Health Informatics New Zealand • Dr Becks Fisher, Director of Research and Policy, Nuffield Trust (UK)
